

# **FACILITIES & INFRASTRUCTURE**

## **MISSION-READY SOLUTIONS. BUILT FOR COMPLEX ENVIRONMENTS.**

### **District of Columbia Department of General Services, Facilities Division; DC Public Schools**

Providing facility support through Environmental Health and Safety (EHS) routine and request-based responses for District Department of General Services (DGS) Facilities Division. Responsibilities include designing and implementing EHS programs across District managed facilities; responding to facility related EHS work order concerns and regulatory requirements; by conducting indoor air quality assessments, occupational exposure, hazardous material management, remediations, flood mitigations, and noise assessments; as well as providing technical recommendations and oversight for corrective actions.

### **District of Columbia Metropolitan Police Department (MPD)**

Supporting the Metropolitan Police Department (MPD) through the development and implementation of Environmental Health and Safety (EHS) programs focused on hazardous material management, lead-safe maintenance practices, and environmental compliance. Responsibilities include overseeing quarterly shooting range lead reduction activities; providing personnel and contractor awareness training; supporting regulated waste management activities; and providing technical guidance and oversight to support safe facility operations and regulatory compliance.

### **District of Columbia Housing Authority (DCHA)**

Providing on-call Environmental Health and Safety (EHS) and facility support services to the District of Columbia Housing Authority (DCHA) across its managed residential portfolio. Responsibilities include supporting vacant unit readiness activities; responding to biohazard and mold related conditions; conducting environmental assessments; and providing technical recommendations, remediation support, and oversight of corrective actions to support safe and suitable occupancy conditions.
